# VADYM ABROSIOMOV

## Frontend Developer

### Profile

Informatics student and aspiring Frontend Developer with hands-on experience in React, React Native, and TypeScript. I enjoy transforming ideas into clean, responsive, and user-friendly interfaces.

### Skills

- Frontend: React, React Native, Angular, expo, React Reanimated, Redux.js, RTK Query, wagmi/reown, WebSocket
- Languages: JavaScript, TypeScript
- Other Tools: Git/GitHub Actions, npm, eas

### Experience

#### Commercial experience

TenThousand

2025 – Currently working

- Implemented Figma designs using React Native,
- Connected backend API routes with RTK Query,
- Collaborated with backend developer on effective WebSocket integration.
- Developed smooth UI animations with Reanimated
- Work experience in an agile, sprint-based development environment.

#### Non-commercial projects

- Angular Portfolio: Angular SPA. High-fidelity Figma UI. A performance-optimized, modern-looking project showcasing frontend, UX and UI skills
- WalletApp: Built a mobile app using Expo (React Native), wagmi, and React Reanimated for advanced animations.
- Real-Time Chat App: Created a chat application with React and Socket.io featuring live messaging.
